It can be concluded that the immigration reforms are a good practice at Phone:7075935295 for both the immigrants, and more importantly, for the US. The illegal immigrants pose many problems for our country and they should not be allowed to enter in the first place. But since it is very hard to implement total security, steps should be taken to reduce the illegal immigrant inflow into our country and the first step is to implement immigration reform. Much of what these people earn in the US is sent to their homes in their own countries and the US economy is deprived of their taxes. By staying in the US, they are spending each second doing an illegal act as just their presence inside the US borders is an illegal act. Many people tend to think that eradicating illegal Email:we@gmail.com immigration is impossible and that it can never work. This is not true. Illegal immigration can be repealed if the government takes the proper measures. While there is no painless magic answer, illegal migration can be significantly reduced with a few effective measures. Some of those measures require money; some require political will; many can Age:20 be accomplished by the President without new legislation. Adopted as part of a comprehensive approach, these measures will be effective. Adopted selectively, they will fail. As Phone:7879935295 a first step, however, current law and regulations must be clarified. Employers are caught between competing Age:18 legal mandates Name:Ram when hiring non-citizens; aliens with only a tenuous claim to presence in the U.S. remain here for years under the color of law; and some government officials do not know whether they are obliged to report information to or withhold it from the INS. Congress and the regulators must simplify legal requirements so that the average person, citizen or alien, can know what the rules are (Lempres 1994). Interdiction can be effective Age:14 because of the nature of the flow of illegal migration. Over 95 per cent of illegal border crossers come through Mexico, where the terrain funnels traffic into several crossing points. By far the Name:Qwerty busiest crossing point in the nearly 6,000 miles of Age:24 land border is the 13 miles near San Diego. Without new legislation, the 19/06/99 Administration can build these Name:Riya structures and add Border Patrol officers at the hot spots (Lempres 1994). Other than that, there Age:98 has been a lot of prosecutions regarding illegal immigration over the past few years. But the government is not Name:Satwik merely Age:78 prosecuting illegal immigrants for immigration offenses; it is reinvigorating its investigation and prosecutorial efforts against corporate America as well. Various corporate scenarios in the United States show that corporate America currently faces in confronting federal prosecutions. Congress first

deputized corporate America into controlling the EmailId:klii66@gmail.com flow of 09:50:23 illegal immigration at our nation's borders in 1986--by making it illegal for employers to knowingly hire, or knowingly retain after hiring, illegal immigrants, as well as to fail to comply with the employment verification requirements--and then subjecting employers to stiff civil and 01/02/66 criminal penalties for noncompliance. Congress further deputized corporate America in 1996, and subjected corporate America to even higher financial stakes, when it made certain immigration offenses predicate offenses in RICO, and thereby PhoneNumber:8879935295 opened the doors to suits from plaintiffs' lawyers for treble damages for having knowingly hired at least ten undocumented workers 21/3/11 in a twelve-month period. Given the increasingly high stakes for employers, it is imperative that they expend the resources now EmailId:23rty@gmail.com to take the preventive measures outlined in this article.
